

Instructions for Joining the DigiDeena Students Group Project at Family Tree DNA

You must have an account setup at Family Tree DNA in order to join the DigiDeena Students Project.

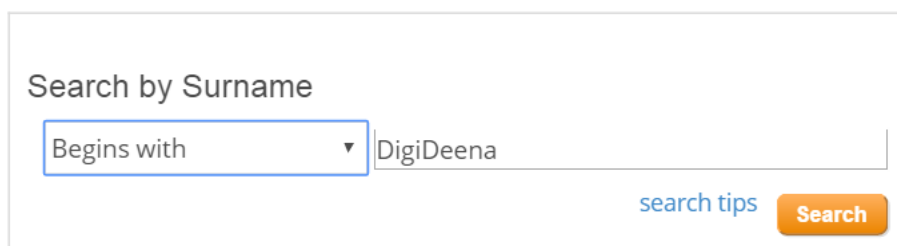

Step 1 – Log into your FTDNA account at www.FamilyTreeDNA.com

Step 2 – Click the Projects menu at top left of page, then select the option to Join a Project

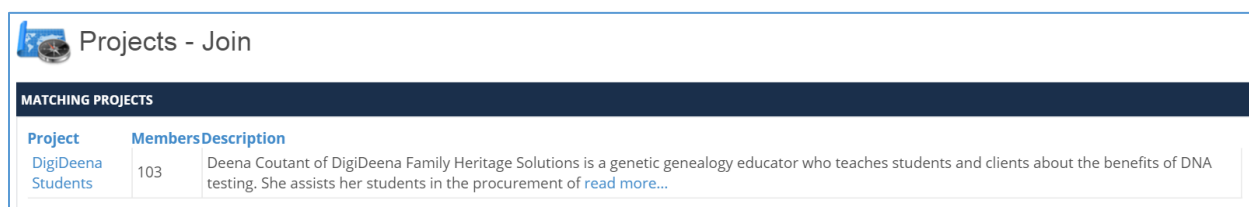

Step 3 – Search for the project

- Under the Search by Surname heading, choose the “Begins with” option
- Type “DigiDeena” into the search box
- Click the orange Search button

A screenshot of the search interface on the FamilyTreeDNA website. The 'Search by Surname' section is visible, with a dropdown menu set to 'Begins with' and the search box containing 'DigiDeena'. An orange 'Search' button is located to the right of the search box.

Step 4 – Select the matching project by clicking the DigiDeena Students blue link

MATCHING PROJECTS		
Project	Members	Description
DigiDeena Students	103	Deena Coutant of DigiDeena Family Heritage Solutions is a genetic genealogy educator who teaches students and clients about the benefits of DNA testing. She assists her students in the procurement of read more...

Step 5 – Request to join

- Read the project description and then scroll down to the bottom of the page to find the empty box with an orange Request button to its right
- The bolded sentence above the box is a standard heading provided by FTDNA that asks about the most distant ancestor you are researching—disregard this heading and instead provide any pertinent information in the box that describes the type of problem you are having and how

Deena Coutant can help with your DNA results; if you have already provided this information in conjunction with requesting a consultation, notate that in your request to join

- Click the orange Request button

Description:
Deena Coutant of DigiDeena Family Heritage Solutions is a genetic genealogy educator who teaches students and clients about the benefits of DNA testing. She assists her students in the procurement of appropriate DNA test(s) for their specific research goals and family composition. Deena also provides consultations to analyze and interpret results, and to improve proficiency in utilizing the various DNA tools and resources on the Family Tree DNA website. This DigiDeena Students group project is setup as a means for Deena to assist individuals who are interested in learning more about what their unique DNA inheritance reveals to them, through Y-DNA, mitochondrial DNA, and autosomal (Family Finder) DNA testing.

Surnames in Project:
DigiDeenaStudents

Please fill in the form below to request to join this project. Your information will be sent to the project's Administrator, who will get in touch with you regarding your request. If the Project Administrator and you agree that you should be part of the project, the Project Administrator will notify you of your membership in the surname project.

Tell us what you know about the line that you are researching, and, if known, the name of the most distant ancestor, date and location.

Type here to give any background info needed for Deena Coutant to assist you with your DNA results

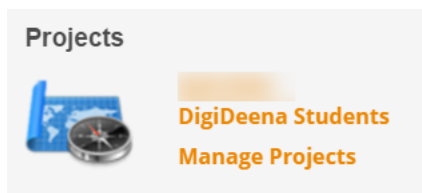

Request

By joining this project, you reaffirm the Terms and Conditions of the Family Tree DNA Website, in particular those pertaining to participation in Projects, which describe the possible public display by some Projects Managers of member results, and your right to opt out of certain display settings, which may be found on the Family Tree DNA Website [here](#).

The **full mtDNA sequence** test contains some genes in the coding region (cr). By default these results are unavailable to the Project Administrators. You may choose to allow your Project Administrators to view your coding region results (most people do) by selecting Yes or No in the [Results Display Settings](#) section of your Account Settings page.

After your request to join the group has been submitted, it must be approved because the DigiDeena Students project is a private group. No further action is required on your part, but you will receive an email confirmation once you have been added to the group. This email will come from Family Tree DNA (info@familytreedna.com) with a subject of "Request to Join DigiDeenaStudents – Accepted."

You can see any group projects to which you belong on your FTDNA home/welcome page, listed in the left sidebar labeled Your Account. Project participation is free and voluntary, and you can leave a project at any time. To leave a project, click the Manage Projects link, and then the Leave Project link.
