

DANISH HERITAGE TOURS

A journey back to your roots

GUIDED GENEALOGY TOURS

On our genealogy tours you will see the specific places in Denmark, where your ancestors lived. We assist in finding the exact places.

During the trip round Denmark by bus, our professional tour guides will also show you sights of interest and tourist attractions.

**It's about identity and roots,
about feelings and belonging.**

A genealogy tour is for you that have Danish ancestors and would like to see the areas and specific places where your relatives came from and lived.

We will visit the church, where your Great-grandfather was christened, the smallholding where he grew up, the school he attended, the cemetery where his parents are buried, the farm where he worked and met your Great-grandmother and the church where they were married.

A genealogy tour is about getting to know your ancestors' background better, about the history and cultural settings of your family.

OUR UNIQUE CONCEPT

Our expertise is genealogy, history, tour planning and guiding.

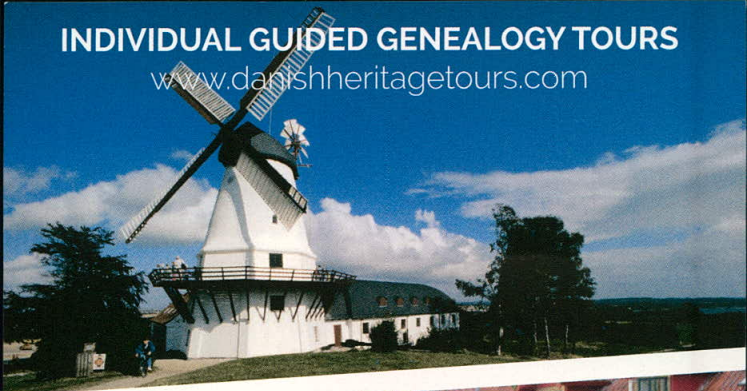

We specialize in individual and tailor-made tours just for you and your group.

We customize your trip in co-operation with you.
