## Features of ResearchTies:

- Hosted online, always available through any internet connection
- Sort log entries on multiple variables to facilitate accurate analysis
- Hyperlink to all online research results
- Upload scans or other digital files of research results, analysis, photos, and more
- Record details of a research plan, including source citations, repositories, and call numbers, as well as the objective and scope of each search to be conducted
- Produce reports electronically or print hard copies

## Answer research questions:

What are my "to do" items at the Family History Library (or any other repository)?

Which objectives have not yet been resolved?

What documents have been discovered for John Emerson? (The list will include hyperlinks to open and analyze the documents.)

What searches have been completed since my last report?

What searches have been done for the Emerson surname in Union County records?

And much more!
